

FOR IMMEDIATE RELEASE

Advanced Core Concepts Announces Major Rebranding as ARCTOS

Advanced Core Concepts (ACC), which combined with ARMA Aviation (ARMA) and Universal Technology Company (UTC) in 2019, will now be known as ARCTOS

Tampa, FL (July 8, 2020) – Advanced Core Concepts, a leading provider of full life cycle system support to defense, space, and intelligence markets, has announced a major rebranding as ARCTOS. ACC combined with premier firms ARMA and UTC in 2019 to create a unique enterprise capable of providing a wide range of technical solutions to help its diverse client base achieve mission success. The combined company is now ARCTOS.

Trase Travers, ARCTOS CEO, comments: “The adoption of the ARCTOS name is an important step in the integration of the overall enterprise and provides a rallying point for the development of a unified culture of excellence. ARCTOS reflects the strength of a complete life cycle solution provider with the agility of motivated and integrated teams adopting and achieving the missions of our customers. We are proud of the contributions we are making to our nation’s most significant challenges and are excited for the future as we embark on ever-greater missions under the ARCTOS banner.”

The rebranding includes a new ARCTOS website, logos, graphics, and color scheme to represent the company’s all-in approach to providing technical solutions to customers. The new brand also symbolizes the company’s full life cycle service offerings as the result of combining uniquely talented firms into a single company last year. ARCTOS has capabilities ranging from engineering and design, to cybersecurity and software development, to sustainment and logistics. ARCTOS is headquartered in Tampa, Florida with additional major operating locations in Albuquerque (NM), Colorado Springs (CO), Dayton (OH), Huntsville (AL), Los Angeles (CA), and Warner Robins (GA). ARCTOS employees are also stationed at other strategic locations across the United States and OCONUS.

About ARCTOS™

ARCTOS is a new name, but the enterprise is not new to the industry with business segments possessing over 58 years of continuous support to the defense industry. ARCTOS provides a wide range of technical solutions for the defense, space, and intelligence markets. If it has anything to do with aerospace, cyberspace, or space systems, we design it and keep it going. This means everything from fighter jets and rockets to simulations and cybersecurity software. When it comes to complex, high-stakes missions, our all-in approach makes all the difference. It means our customers get more breadth, more know-how, and more accountability on every project. That’s why the U.S. Army, U.S. Air Force, NASA, and other government entities, all turn to us. It’s also why private sector companies choose to partner with us. ARCTOS. All In.™
